

Folio™

A paper Insert Holding Sign which can be fixed on its own or combined into modular door and directory signs.

Unlike other paper Insert signs which tend to be low tech and prone to failure with lenses jamming, falling out or getting scratched and lost, Folio™ is secure and reliable. By understanding the nature of materials and designing differential expansion from the outset, Folio™ is secure and reliable.

- Stainless steel frame to hold acrylic cover and paper inserts.
- Perforated paper inserts are supported with Folio™, as are a wide variety of insert labels and word templates, allowing for easy control.
- In addition to regular paper inserts produced on high resolution ink-jet printers, Folio™ makes use of advanced printing techniques including UV cured 2D applied to the acrylic lens.
- Window lens available in clear or green tinted acrylic.
- Can be combined with Jigsaw™ to create a total interior sign system.
- ISO 9001 and 14001 manufacturing process.
- Folio™ UNO is a single holder with an acrylic lens and paper insert.
- Folio™ DUO allows for change of surface texture across lens with optional frosted films or decorative foils.
- Folio™ Split offers unique expression with a change of surface properties.
- INVISIBLE Folio™ Interior sign for mounting on Glass with minimal visibility.
- Folio™ for Cubicles and Desks. Flat face folded stainless-steel paper-insert holder using either FOLIO UNO, FOLIO DUO or FOLIO Split.
- Folio™ mounted on monolith frame combined with JIGSAW™ panels, fixings, and rails.

Folio™ Features and Options

STANDARD FEATURES AND OPTIONS

- Sign holder is composed of a 0.6" stainless-steel holder which has a folded u-shaped lip to hold lens in securely. Holder may be PVD coated as bronze.
- Clear, gloss or non-reflective acrylic lens has an expansion slot allowing for an expansion "no scratch" zone between lens and holder.
- Paper-insert fits securely between the acrylic lens and holder.
- Multiple perforated paper options and insert labels with Word templates.stainless-steel paper-insert holder using either FOLIO UNO, FOLIO DUO or FOLIO Split.

GRAPHICS OPTIONS

Texting and Graphic methods include:

- Full-panel face print-on-lens graphics - 1200 dpi, eight-color print system, including 2 white ink layers, printed primer, and UV matte lacquer.
- For paper inserts, computer generated perforated printed inserts via Microsoft Word templates.
- For ADA compliance: raised letters and Grade II raster Braille or Grade II Braille produced by Direct Jet UV 3D printer.

STAINLESS-STEEL HOLDER SIZES

Standard size options:

- 0.6" (H) x 2.9", 4.1", 5.8" (W)
- 1.2" (H) x 2.9", 4.1", 5.8", 8.3", 11.7", 16.8", 23.6" (W)
- 2.4" (H) x 2.9", 4.1", 5.8", 8.3", 11.7", 16.8", 23.6" (W)
- 3.5" (H) x 5.8", 8.3", 11.7", 16.8", 23.6" (W)
- 5.8" (H) x 5.8", 8.3" (W)
- 8.3" (H) x 5.8", 11.7", 16.8" (W)
- 11.8" (H) x 8.3", 11.7", 16.8", 23.6" (W)
- 16.5" (H) x 11.7" 16.8", 23.6" (W)

INTERIOR MONOLITH

- Folio Uno, Folio Duo, or Folio Split holders in all sizes mounted on Monolith frame and combined with jigsaw system.
- Single or double-sided solutions.
- Freestanding monolith on steel base plate.
- **Monolith sizes:**
56.1", 64.4", 71.5" (H) x 8.3", 11.7", 17.1" 23.6" (W)

INVISIBLE FOLIO™

- For glass mounting where sign profile is minimal.
- Bonded mini rails adhere to glass.
- Holds frosted or clear lens.
- Acetate Insert fits behind lens.

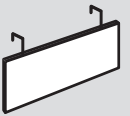

CUBICLE AND DESK SIGNS

Standard size options:

- 0.6" (H) x 2.9", 4.1", 5.8" (W)
- 1.2" (H) x 2.9", 4.1", 5.8", 8.3", 11.7" (W)
- 2.4" (H) x 2.9", 4.1", 5.8", 8.3", 11.7" (W)
- 3.5" (H) x 5.8", 8.3", 11.7" (W)
- 5.8" (H) x 5.8", 8.3" (W)
- 8.3" (H) x 5.8", 11.7", 16.8" (W)
- Hook over brackets for cubicle signs.
